DOE, RFO

Attn: F. R. Lockhart

### STATUS OF OU 3 FIELD WORK AND NEPA DOCUMENTATION - JMK-0334-92

On March 10, 1992, a letter was sent to your office by EG&G requesting guidance concerning the conflict between the schedules to start Operable Unit No. 3 (OU 3) Field Work and publish the NEPA-required Federal Register floodplain notice. Publication of the Federal Register Floodplain notice will not occur in time for the required start of OU 3 field activities. Guidance from DOE on this problem is still necessary.

We have incurred a slight delay separate from the NEPA issue that will delay activities from the April 1, 1992 start date. The Broomfield City Council and the Jefferson County Commissioners will not act upon the RFP request for access until April 15, 1992. Without access to these large areas of OU 3, the start of field activities will be delayed until that time.

OU 3 field activities will be poised to begin work on April 16, 1992. Please advise EG&G Rocky Flats (EG&G) by April 10, 1992 on direction to proceed or to continue waiting for publication of the Federal Register floodplain notice. EG&G Environmental Management still proposes to begin field sampling without the completed Federal Register notice requirement if it is determined by DOE to be the best action.

If you have any questions concerning this issue, please contact M. Guillaume of Remediation Programs at 966-4291.
